QS 112 Subwoofer

QS 112

The QS 112 is a very compact and powerful subwoofer system

The QS 112 is a very compact and powerful subwoofer system. Its compact cabinet dimensions allows installation in venues where High LF SPL is desired but space is limited. Featuring a front facing 12" Dual Voice Coil Woofer it handles 800 watts continuous at 8 ohms and provides 129.5 dB SPL. The built in stereo crossover provides quick and easy connection for Mid/ HF satellite speakers such as our recommended companion Q 106 speakers to create a complete compact P.A. speaker system with stunning audiophile quality and presence that must be heard to be believed! The Q 112 combined with Two Q 106 satellite speakers also provides a very "easy to transport " system for portable sound applications. Equipped with a 1^{3/8}" (35mm) top mount speaker stand socket and six M -10 fly points, the Q112 cabinet is constructed with 18 mm. (3/4") Baltic birch plywood that is also internally braced to prevent undesired resonance and is finished with a durable scratch and scuff resistant black paint.

Configuration	Bass Reflex
Recommended amplifier	Watts (RMS) 800
Long term power	Watts 400
Short term power (IEC 268-5)	Watts 1600
Nominal impedance	ohms 8+8
Frequency response @ -6dB	40Hz – 300Hz
Low frequency woofer	12" – 3" voice coil
Sensitivity (@ 1W/1m)	dB 97,5
Maximum SPL	dB 129,5
Dispersion	Omnidirectional
Crossover frequency	Hz 130
Recommended HP filter	35Hz-24dboct
Recommended external controller	Qube SP 22D plug in module
Input connectors	2 speakon NL-4
Net dimensions (WxHxD)	cm 39x52x55 (15,35"x20,47"x21,65")
Net weight	Kg 30 (lbs 66)
