QS-218

Subwoofer speaker system, 2x18"

The QS 218 subwoofer is by design, the companion subwoofer for the QSA 210 and the QSA 112 2 way line array speaker cabinets, although it can be used to provide extended LF reinforcement for any sound system application. The QS 218 features Two 18" front facing woofers that are housed in a bass reflex cabinet handling 2800 watts of continuous power and delivering 140.5 dB SPL, to provide massive low end punch combined with high power handling and efficiency for high performance touring and permanent installation applications. The cabinet is constructed with 18 mm. (3/4") Baltic birch plywood that is also internally braced to prevent undesired resonance at extreme sound pressure levels, and is finished with a durable scratch and scuff resistant black paint. An Optional 4 wheel kit is available to fit the QS 218, making it easily transported for touring and mobile applications.

Configuration	Bass Reflex
Recommended amplifier	Watts (RMS) 2800
Long term power	Watts 1400
Short term power(IEC268-5)	Watts 5600
Nominal impedance	ohms 2
Frequency response @ -6dB	28Hz – 400Hz
Low frequency woofer	18" – 4" voice coil
Sensitivity (@1W/1m)	dB 103
Maximum SPL	dB 140,5
Recommended External Crossover frequency Hz	100
Dispersion	Omnidirectional
Recommended HP filter	24Hz-24dboct
Recommended external controller	SP 22Ds plug in module
Input connectors	2 speakon NL-4
Net dimensions (WxHxD)	cm 107x73x65,7 (42.14"x 28.75"x 25.87")
Net weight	Kg 100 (lbs 222)
